The National Physical Laboratory was established in 1900 at Bushy House "to bring scientific knowledge to bear practically upon our everyday industrial and commercial life". It grew to fill a large selection of buildings on the Teddington site. NPL procured a large state-of-the-art laboratory under a Private Finance Initiative contract in 1998. The construction, which was being undertaken by ...

Looking for a job in biology? Pursuing a career in biology can be immensely rewarding and exciting. Studying biology teaches us to ask questions, make observations, evaluate evidence, and solve problems. Biologists learn how living things work, how they interact with one another, and how they evolve. They may study cells under a microscope, insects in a rainforest, viruses that affect human ...
