Naval architecture, or naval engineering, along with automotive engineering and aerospace engineering, is  
an engineering discipline branch of vehicle engineering, incorporating elements of mechanical, electrical,  
electronic, software and safety engineering as applied to the engineering design process, shipbuilding,  
maintenance, and operation of marine vessels and structures.

Ventilation is the intentional introduction of ambient air into a space and is mainly used to control indoor air  
quality by diluting and displacing indoor pollutants; it can also be used for purposes of thermal comfort or  
dehumidification. The correct introduction of ambient air will help to achieve desired indoor comfort levels  
although the measure of an ideal comfort level varies from ...

Oracle acquired Sun Microsystems in 2010, and since that time Oracle's hardware and software engineers have worked side-by-side to build fully integrated systems and optimized solutions designed to achieve performance levels that are unmatched in the industry. Early examples include the Oracle Exadata Database Machine X2-8, and the first Oracle Exalogic Elastic Cloud, both introduced in late 2010.
