Narratives of Memory, Migration, and Xenophobia: Intercultural Dialogues . The recent resurgence of nationalist and xenophobic movements in North America and Europe has in part been powered by the deployment of particular narratives of the past, especially narratives about migration, settlement, and belonging.

### **Narratives of Memory, Migration, and Xenophobia**

This book identifies memory a previously unexamined concern in both literary and popular writing of the 1940s. Emphasizing the use of memory as a structural device, this book traces developments in narrative, during and immediately after the war. Authors include Margery Allingham, Elizabeth Bowen,

memory and space in this project to support a specific theoretical avenue. I argue that memory and property are socio-spatial - and that socio-spatial events, such as property loss - can be haunted social memory. I also argue the spaces of property loss act as important sites of such haunted memories. Consequently, this project may also serve to

narrative is present in every age, in every place, in every society;it begins with the very history of mankind and there nowhere is nor has been a people without narrative.

## **TheCambridgeIntroductionto Narrative**

The experiences we have with narratives starting as young children establish supportive conditions in the brain for learning and remembering, based on a foundation of emotional connections to the experience of being read to or told stories. In addition, the familiarity of the narrative pattern becomes a strong memory-holding template.
