

needs assessment a creative pdf

A needs assessment is a systematic process for determining and addressing needs, or "gaps" between current conditions and desired conditions or "wants". The discrepancy between the current condition and wanted condition must be measured to appropriately identify the need. The need can be a desire to improve current performance or to correct a deficiency.

ABSTRACT. The aim of this article is to systematically review Training Needs Assessment (TNA) scientific literature. Based on two research questions (where are we? where should we go?), we hoped to evaluate the current state of scientific production on TNA and to point out some possible developments.

Summative assessment (or summative evaluation) refers to the assessment of participants where the focus is on the outcome of a program. This contrasts with formative assessment, which summarizes the participants' development at a particular time. Summative assessment is widely taught in educational programs in the United States. [citation needed] Scriven claims that while all assessment ...
