no matter the question pdf

In linguistics, a yes-no question, formally known as a polar question or a general question, is a question whose expected answer is either "yes" or "no". Formally, they present an exclusive disjunction, a pair of alternatives of which only one is acceptable. In English, such questions can be formed in both positive and negative forms (e.g. "Will you be here tomorrow?")

Mindset. Apatheism considers the question of the existence or nonexistence of deities to be fundamentally irrelevant in every way that matters. This position should not be understood as a skeptical position in a manner similar to that of, for example, atheists or agnostics who question the existence of deities or whether we can know about anything about them.
