Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life. Nurses may be differentiated from other health care providers by their approach to patient care, training, and scope of practice. Nurses practice in many specialties with differing levels of prescription ...

Family medicine (FM), formerly family practice (FP), is a medical specialty devoted to comprehensive health care for people of all ages; the specialist is named a family physician or family doctor. In Europe the discipline is often referred to as general practice and a practitioner as a general practice doctor or GP; this name emphasises the holistic nature of this speciality, as well as its ...

Public health authorities have described, with growing alarm, an unprecedented increase in morbidity and mortality associated with use of opioid pain relievers (OPRs). Efforts to address the opioid crisis have focused mainly on reducing nonmedical OPR use. Too often overlooked, however, is the need for preventing and treating opioid addiction, which occurs in both medical and nonmedical OPR users.
