

on diseases of the pdf

Clinical Trials Article Collection. Browse a collection of key articles reporting on clinical trials of agents or interventions to prevent or treat infectious diseases affecting patients worldwide.

Clinical Infectious Diseases | Oxford Academic

A parasite is an organism that lives on or in a host and gets its food from or at the expense of its host. Parasites can cause disease in humans. Some parasitic diseases are easily treated and some are not. The burden of these diseases often rests on communities in the tropics and subtropics, but parasitic infections also affect people in developed countries.

Celiac disease is a digestive disorder that damages the small intestine. People with celiac disease cannot eat gluten, a protein found in wheat, barley, and rye.

Celiac Disease | NIDDK

The kidneys are two bean-shaped organs. Each kidney is about the size of a fist. Your kidneys filter extra water and wastes out of your blood and make urine. Kidney disease means your kidneys are damaged and canâ€™t filter blood the way they should. You are at greater risk for kidney disease if you ...
