An Overview of Strategic Retail Management - Pearson

Retail is the process of selling consumer goods or services to customers through multiple channels of distribution to earn a profit. Retailers satisfy demand identified through a supply chain. The term "retailer" is typically applied where a service provider fills the small orders of a large number of individuals, who are end-users, rather than large orders of a small number of wholesale ...

Retail - Wikipedia

The course offers essential retail management knowledge, international retailing expertise, brand development and creative direction skills demanded by fashion retailers operating in an increasingly competitive and global environment.

Benchmarking improves performance by identifying and applying best demonstrated practices to operations and sales. Managers compare the performance of their products or processes externally with those of competitors and best-in-class companies, and internally with other operations that perform similar activities in their own firms.

Middle management is the intermediate management of a hierarchical organization that is subordinate to the executive management and responsible for at least two lower levels of junior staff. Unlike the line management, middle management is considered to be a senior (or semi-executive) management position, with respective salary and a package of benefits.
